DISCLOSURE OF INFORMATION

This Disclosure provides you with information regarding your Group Dental Benefits. It is intended to clarify and to provide additional information about your plan. The Group Certificate provides detailed provisions of coverage including any limitations or restrictions that apply. **Read your certificate carefully.**

What is the Sun Life Dental PPO?

The Sun Life Dental PPO Policy is a group dental insurance program provided by us that uses a nationwide network of Dentists. Sun Life strives to provide the most comprehensive network of Dentists possible in all areas of the country. The Sun Life Dental PPO Network includes dentists that are contracted with Dental Health Alliance L.L.C.® (DHA®), a Sun Life affiliate, and dentists that are contracted with other, unaffiliated, dental PPO networks. In order to ensure that quality standards are met, DHA® uses a National Committee for Quality Assurance (NCQA) accredited organization to conduct credentials verification for its Dentists. The other dental PPO networks that Sun Life accesses also have credentialing policies and procedures that apply to their contracted Dentists. All Dentists have the right to participate in the DHA® network provided all credentialing criteria are met and they are willing to meet the terms and conditions for participation. The other dental PPO networks that Sun Life accesses have their own criteria for accepting Dentists into their networks.

Key features of this plan include:

- Insureds may receive services from providers of their choice; and
- Insureds may receive higher levels of benefits for dental services when choosing Participating Providers;
- Insureds are not required to select general practitioners or to receive referrals prior to visiting specialists.

How do you find a provider in the network?

You may obtain provider directories by:

- contacting our Customer Service Department at 800-247-6875; or
- viewing the list of Participating Providers on our website at www.sunlifedentalbenefits.com.

It is possible that a provider may have left or joined the network since the publishing of the directory. You may contact Sun Life's Customer Service Department directly to report a directory inaccuracy.

How are providers in the network compensated?

Reimbursements to dental providers are based on various factors. When covered services are provided by a Participating Provider, charges are on a contracted fee-for-service basis. Whether a Participating Provider's contracted fees apply to non-covered services depends upon any applicable state law and, in some cases, whether the Participating Provider has elected to offer network fees on non-covered services.

The Participating Provider is not given an incentive or bonus that encourages withholding service or that influences referrals to specialists. If you want additional information about how Participating Providers are compensated, please contact us.

Is the provider allowed to discuss all Treatment options with you?

The Participating Provider contracts do not include "gag" clauses. The contracts do not prohibit the provider from discussing, with an Insured:

- the available Treatment options and services, including experimental Treatments; or
- the compensation methodology.

What is a Pre-Determination of Benefits?

A Pre-Determination of Benefits allows an Insured to know, prior to receiving Treatment, the amount of benefits that may be payable. We recommend a Pre-Determination of Benefits for some services. These are described in the "Covered Dental Benefits" section of the Certificate. We will notify you and the Dentist of the benefits payable based upon the Course of Treatment that was submitted.

DISCLOSURE OF INFORMATION

Pre-Determination of Benefits is not a guarantee of benefits under your dental Policy. You or your Dependents must meet the eligibility requirements and services must be Covered Dental Expenses for benefits to be payable. In addition, claims are processed in the order in which they are received. Therefore, the service for which an Insured received a Pre-Determination of Benefits may not be payable if the Maximum Benefit was reached since the Pre-Determination was processed. **Please be sure to read the Certificate carefully to ensure coverage is provided under your Policy.**

Are claims subject to retrospective review?

Certain claims are subject to retrospective review to determine whether the supplies or services provided are Dentally Necessary as required by the Policy. Other than expenses for coverage that is required by state law (or for bleaching of teeth, if covered by your plan), expenses for Treatment or supplies that are not Dentally Necessary or are not within generally accepted standards of dental Treatment are not covered by the Policy. We use clinical guidelines and utilization review criteria. This process includes consultation with practicing dentists and all criteria are applied so that the individual health care needs of the insured are considered. We have a Quality Assurance Program to help us assure the highest quality of care delivered to our insureds.

What are your benefits?

The "Benefit Highlights" and "Covered Dental Benefits" sections of the Certificate contain information regarding benefits including benefit maximums and limitations. The "Benefit Highlights" section outlines the benefit levels for your plan. It also includes information about your responsibility for payment related to coinsurance, deductibles and annual limits. In determining the amount of benefits payable, consideration will be given to alternate dental Treatment that will accomplish a professionally satisfactory result. If the Insured and the Dentist agree to a more costly method of Treatment, the excess amount will not be paid by us. If services are not covered by the Policy, you are responsible for full payment.

The "Exclusions" section of the Certificate contains information about charges for which no benefits are paid. Benefits are payable for Dentally Necessary Treatment, subject to all of the provisions of the Policy.

The following example illustrates benefit payments using both Participating and Non-Participating Providers. Your plan may differ in deductible and coinsurance levels. However, this example demonstrates the impact on benefits of using Non-Participating Providers.

This example assumes no cash deductible for Type I Dental Services; 90% coinsurance for Network Expenses rendered by a Participating Provider; and 90% coinsurance for Non-Network Expenses rendered by a Non-Participating Provider.

- periodic and random review of utilization review decisions;
- monitoring of compliance with state and federal requirements;

- monitoring utilization review notifications to insure adherence to state and federal requirements;

Is your information kept confidential?

Dental records and other patient information will be released only upon written authorization from you. Such information may only be used *by us* to determine eligibility for benefits and to administer the Policy. We maintain physical, electronic, and procedural safeguards to protect the confidentiality of information provided to us.

Is there any record of complaints?

Complaint records are available in our Executive Office for inspection by the Commissioner of Insurance. Copies of all correspondence involved in complaint resolution are maintained for a minimum of 7 years.

Can your plan be cancelled?

Your Employer may renew this coverage unless any of the following conditions exist:

- non-payment of premium;
- fraud or misrepresentation;
- failure to maintain minimum participation in the plan;

The commissioner shall prescribe or approve the procedures for the implementation of the provisions of this section; non-renewal or cancellation of your Employer's plan; or relocation outside our service area.

DISCLOSURE OF INFORMATION

Are there any involuntary disenrollments?

There are no involuntary disenrollments from our dental plan.

What are our responsibilities regarding your rights?

We are committed to treating all our Insureds in a manner that respects their rights under the Policy. We expect the providers of care to treat our Insureds as they would any other patient in terms of care provided, accommodations, and timeliness of access to care.

The Sun Life Dental PPO does, sometimes, solicit information on Insured satisfaction.

6. COVERED DENTAL BENEFITS

What is the Dental Benefit?

We will pay a Dental Benefit if an Insured Incurs Covered Dental Expenses for any of the services shown below. Payments for Covered Dental Expenses are based on the type of service – Type I, Type II or Type III. The percentage payable for each type of service is shown in the Benefit Highlights. Dental Benefits are only available for Covered Dental Expenses that are Incurred while an Insured is covered under the Policy.

Are you required to get a Pre-Determination of Benefits?

We recommend a Pre-Determination of Benefits for:

- extensive Treatment such as root canal therapy, crowns, bridges and periodontal Treatment, if those services are included under this Policy; or
- any Treatment for which charges will exceed \$500.

We recommend that the Course of Treatment be submitted to us for review before Treatment begins. We will notify you and the Dentist of the benefits payable based upon the Course of Treatment. In determining the amount of benefits payable, we will consider alternate dental Treatment that will, as determined by us, accomplish a professionally satisfactory result. If you and the Dentist agree to a more costly method of Treatment, than that determined by us, the excess amount will not be paid by us.

Pre-Determination of Benefits is not required. If you do not submit a Pre-Determination of Benefits the amount of benefits payable by us is not affected.

What is the alternate dental Treatment benefit?

If we determine that alternate procedures, services or Courses of Treatment can be performed to correct a dental condition, payment will be considered for the least costly procedure which we determine will produce a professionally satisfactory result. No alternate dental Treatment benefit is payable for any service that is not a Covered Dental Expense.

Under what conditions are benefits payable?

Our payment of benefits is subject to all the terms and conditions of the Policy. We will not pay benefits for any one item of expense under more than one provision of the Policy. All related dental expenses will be considered as part of the most comprehensive procedure and only the benefit for that procedure will be payable.

What are providers entitled to collect from you?

If an Insured uses the services of a Participating Provider for Covered Dental Expenses, those providers are entitled to collect from you the difference between the amount of benefits payable by us and the lesser of the provider's billed charge or the Allowable Charge. If we pay a benefit for an alternate dental Treatment, a Participating Provider is entitled to collect from you the difference between the amount of benefits payable by us and the lesser of the provider's billed charge or the Allowable Charge for the service provided.

If an Insured uses the services of a Non-Participating Provider, that provider is entitled to collect from you the difference between the amount of benefits payable by us and the provider's billed charge.

What benefits are payable for Type I, Type II and Type III Covered Dental Expenses?

If during a Calendar Year an Insured Incurs Covered Dental Expenses in excess of the Deductible, the benefit payable will be:

- equal to the applicable percentage shown in the Benefit Highlights;
- subject to any Benefit Waiting Periods; and
- limited to the Calendar Year Maximum Benefit.

6. COVERED DENTAL BENEFITS

What is the Deductible?

The Per Person Deductible is the amount of Covered Dental Expenses that an Insured must Incur in a Calendar Year before any benefits are payable. The Per Person Deductible per Calendar Year for each type of Covered Dental Expense is shown in the Benefit Highlights. The amounts to be applied to meet the Deductible must be charges for Covered Dental Expenses.

Amounts applied for your family will not exceed the Maximum Family Deductible shown in the Benefit Highlights in any Calendar Year, even if the Per Person Deductible has not been met.

The Maximum Family Deductible shown in the Benefit Highlights is the number of Insureds in your family who must each Incur Covered Dental Expenses in excess of the Per Person Deductible. Once the Maximum Family Deductible is met, Covered Dental Expenses are payable even if the Per Person Deductible has not been met.

If an Insured Incurs Covered Dental Expenses for Type I Services, those expenses are not subject to the Per Person Deductible.

What is the Calendar Year Maximum Benefit?

The Per Person Maximum Benefit in each Calendar Year for Type I, II and III Dental Expenses combined is shown in the Benefit Highlights. The Calendar Year Maximum Benefit applies to all periods of time the Insured is insured during a Calendar Year regardless of any interruption in coverage for this insurance. This Maximum Benefit applies to all Covered Dental Expenses.

Does your Treatment have to have a favorable prognosis?

Benefits will be considered only for Treatment that we determine has a reasonably favorable prognosis of correcting the Insured's dental condition for a period of at least 3 years.

What if you have a Dental Emergency?

If due to a Dental Emergency, an Insured cannot reasonably travel to a Participating Provider and Incurs Covered Dental Expense in excess of the Deductible, the benefit will be payable on the same basis as Network Expenses.

Are benefits payable for temporary work?

Benefits for temporary dental service including temporary prosthetics will be considered a part of the final dental service. By temporary prosthetics we mean any prosthetic inserted and used by an Insured for fewer than 12 months. Any prosthetic inserted and used by an Insured for at least 12 months will be considered permanent in nature.

Are any benefits payable after your insurance terminates?

No benefits are available after an Insured's insurance ends except that benefits are available:

- for procedures requiring multiple visits if the Treatment is started while an Insured is covered under the Policy and completed within 31 days after the Insured's insurance ends. Treatment is considered started when the tooth is irrevocably altered. This extension is limited to crowns, fixed bridges, inlays, onlays, full dentures, partial dentures and root canal therapy if such services are included under this Policy; and
- until the end of the calendar year quarter in which insurance ends, for Orthodontic Treatment Incurred while covered under the Policy if such services are included under the Policy.

A pre-determination for any Course of Treatment is not Treatment started. No benefits are payable if your Employer cancels the Policy and replaces it with another plan of group dental coverage within 30 days of the date the Policy ends.

You will have 45 days to provide the specified information.

When are benefits payable?

Benefits are payable upon our receipt of satisfactory proof of claim that establishes benefit eligibility according to the provisions of the Policy.

8. CLAIM PROVISIONS

To whom are benefits payable?

We will pay you if your proof of claim is satisfactory to us except in the following situations:

- an Insured assigns benefits to a provider. In such case, we may pay the benefits directly to the provider.
- You are a minor. In such case, claim may be made by your duly appointed guardian, conservator or committee and we will pay to such person or persons;
- due to physical or mental incapacity, you cannot, in our judgment, give us a valid receipt for payments. In such case, claim may be made as described above; or
- You die before we pay you. In such case, claim may be made by your executor or the administrator of your estate and we will pay to such person or persons.

COORDINATION OF BENEFITS

What is Coordination of Benefits?

If an Insured is covered under more than one dental plan, the benefits from other Plans will be taken into account. This may require a reduction in benefits under this Policy, so that the combined benefits will not be more than the Allowable Expenses of this Policy and any other Plan.

What is a Plan?

For purpose of Coordination of Benefits (COB), a Plan is any plan that provides dental expense benefits or services under:

- group insurance, individual insurance or any other insured or uninsured arrangement of coverage; or
- basic automobile reparations (no-fault) insurance, but only:
 - to the extent of the benefits required by or available under the applicable no-fault law; and
 - if such no-fault insurance does not, under its rules, determine its benefits after the benefits of any group health insurance.

The term "Plan" will be construed as follows:

- separately with respect to each policy, contract, or other arrangement for benefits or services; and
- separately with respect to each of the following:
 - that part of any such policy, contract, or other arrangement which reserves the right to take into account the benefits or services of other Plans in determining benefits; and
 - that part which does not reserve such right.

Benefits payable under another Plan include the benefits that would have been payable if claim had been made for them.

What is an Allowable Expense?

For purpose of COB, an Allowable Expense is any necessary, reasonable, and customary item of Covered Dental Expense (as shown in the "What are Covered Dental Expenses?" section) that is at least partly covered under at least one of the Plans covering the Insured for whom claim is made. When a Plan provides benefits in the form of services rather than cash, the value of each service will be considered to be both an Allowable Expense and a benefit paid.

How are benefits computed under COB?

In a Calendar Year, this Policy will always either pay its regular benefits in full, or it will pay a reduced amount which, when added to the benefits payable and the cash value of any services provided by the other Plans, will equal 100% of the Allowable Expenses Incurred by the Insured for whom claim is being made.

Are there any limits on the use of COB?

In computing the benefits under this Policy, the benefits under any other Plan will not be included if:

- the other Plan contains a COB provision that:
 - provides for coordinating its benefits with those of this Policy; and
 - under its terms, would compute its benefits after we compute the benefits under this Policy; and
- the rules shown in the "How are plans' benefits determined" section require that this Policy's benefits are computed before the other Plan computes its benefits.

8. CLAIM PROVISIONS

How are plans' benefits determined?

To determine whether we will reduce the benefit we would have paid if COB had not been included, it is necessary to determine the order in which the various Plans will pay benefits.

This will be determined as follows:

- a Plan with no COB provision will be considered to pay its benefits before a Plan that contains such a provision.
- a Plan that covers a person other than as a dependent will be considered to pay its benefits before a Plan that covers that person as a dependent.
- a Plan that covers a person as a dependent of an employee whose month and day of birth occur earlier in the calendar year will be considered to pay its benefits before a Plan that covers that person as a dependent of an employee whose month and day of birth occur later in the calendar year. If, however, the COB provisions of any other Plan do not contain a rule like the one described in the preceding sentence, then such rule will not apply and the applicable rule set forth in such other Plan shall determine the order of benefit payment. However, if the parents of a dependent child are separated, divorced, or not living together, whether or not they have ever been married, the following rules apply:
 - if there is a court decree that sets responsibility for the child's health care, a Plan that covers the child as a dependent of the parent with such responsibility will be considered to pay its benefits before any other Plan that covers the child as a dependent child; otherwise
 - if the parent with custody of the child has not remarried, a Plan that covers the child as a dependent of that parent will be considered to pay its benefits before a Plan that covers the child as a dependent of the parent without custody.
 - if the parent with custody of the child has remarried:
 - a Plan that covers the child as a dependent of that parent will be considered to pay its benefits before a Plan that covers that child as a dependent of the step-parent; and
 - a Plan that covers such child as a dependent of the step-parent will be considered to pay its benefits before a Plan that covers the child as a dependent of the parent without custody.
- Where the rules above do not establish the order of payment, the Plan under which the person has been covered for the longer period of time will be considered to pay its benefits before the other. However:
 - a Plan that covers a person as a laid-off or retired employee, or as a dependent of such a person, will be considered to pay its benefits after a Plan that covers such person as other than a laid-off or retired employee, or as a dependent of such a person. If the other Plan does not contain this rule, then this rule shall not apply.

What are our rights under COB?

We have the right to release or obtain any information and make or recover any payments we consider necessary in order to administer this provision.

We may, without the consent of or notice to any person, release to or obtain from any other insurance company, organization or person, any information, with respect to any person, that may be needed to apply the terms of the COB provision or any similar provision of any other Plan.

Any person who claims benefits under this Policy must furnish to us any information that we may need to apply the COB provision. For the purposes of this section only, any person who is insured under this Policy will be deemed to have authorized us to secure the information necessary to apply the terms of this provision.

What if a Plan makes a payment that should have been made by us?

If any payment that should have been made under this Policy according to the COB provision is made under any other Plan, we have the right to pay to the organization that made such payment any amount that, in our judgement, will satisfy the intent of the COB provision. Any amount so paid will:

- be deemed a benefit paid under this Policy; and
- fully discharge us from our liability under this Policy.

8. CLAIM PROVISIONS

What if we overpay a claim?

If a payment made under this Policy is in excess of the total amount required to satisfy the intent of the COB provision, we have the right to recover any excess amount from one or more of the following:

- any person to whom, for whom, or with respect to whom such payment is made;
- any other insurance company; or
- any other organization.

9. INSURANCE CONTINUATION

Are there any conditions under which your Employer can continue your insurance?

- Absence due to Injury or Sickness - up to 12 months;
- Layoff – up to 1 month;
- Leave of Absence - up to 1 month;
- Vacation – based on your Employer's policy, not to exceed 3 months.

While the Policy is in force, you may be eligible to continue your insurance as long as your Employer keeps paying premiums on your behalf. You should contact your Employer for more details.

Federal Continuance

Are there any conditions under which you can continue your insurance?

Federal law requires certain employers to offer continuation coverage to Employees for a specified period of time upon termination of employment or reduction of work hours for any reason other than gross misconduct. You should contact your Employer to find out whether or not this requirement applies. Your Employer will advise you of your rights to continuation coverage, if any, and the cost.

If this requirement does apply, you must elect to continue coverage within 60 days from your Family Status Change or notification of rights by your Employer, whichever is later.

You may elect to extend coverage for your eligible Dependents, or your eligible Dependents may elect to continue coverage under certain circumstances or due to a Family Status Change. Dependents must elect to continue coverage within 60 days from the event or notification of rights by your Employer, whichever is later.

You must pay the required premium for continuation coverage directly to your Employer. We are not responsible for determining who is eligible for continuation coverage. If the Policy contains a continuance provision that is mandated by a state law, Insureds eligible under that provision will have the choice of electing:

- the state continuance coverage and then the federal continuance coverage, if allowed by state law; or
- the federal continuance alone.

State Continuance

Are there other conditions under which you can continue your insurance?

You may elect to continue your insurance for a Dependent who becomes ineligible due to a judgment absolute of Divorce or of separate support. If the judgment specifies that you are not required to continue insurance for your Dependents while you are insured under the Policy, insurance for your dependents will continue until the earliest of the following (subject to the "When does continuance of insurance end?" section of the Certificate):

- the date you enter into a new Marriage unless the judgment requires you, if insured, to continue insurance for your former Spouse;
- the date provided in the judgment; or

9. INSURANCE CONTINUATION

- the date insurance would otherwise end under the Policy.

This continuation of insurance applies only to your Dependents who were insured under the Policy on the date of the judgment.

When does continuation of insurance end?

The continuation of insurance will end on the earliest of:

- the last day for which any required premium has been paid for your continuance of insurance;
- the last day of the maximum period of continuation that applies to the Insured;
- the date your Dependent becomes eligible for coverage under another group plan, if allowed by law;
- the date the Policy terminates;
- the date your Employer's participation in the Trust and under the Policy is terminated;
- the date your Dependent no longer meets the definition of Dependent as described in this Certificate.
